

November 3, 2018

Erie Board of Trustees
645 Holbrook St.
Erie, CO 80516

Dear Town of Erie Trustees,

We request that the Erie Board of Trustees, cease consideration of adopting the proposed Amended and Restated Operator Agreement with Crestone Peak Resources LLC (Operator Agreement).

We again question if the public process has been handled appropriately. Were provisions added without transparency, particularly in regards to the newly included ACME site? In addition, this vote is being put forward just before an election, which could impact any possible benefits of changes made as a result of a democratic vote. Lastly, the proposed Operator Agreement does not meet the conditions of protecting health, safety, and welfare.

We believe the reasons listed below should be reason enough to delay this vote to allow public engagement.

Colorado Open Meeting Laws

In order to continue the public confidence in the integrity of government officials and to promote trust of the people in the objectivity of their public servants, this open disclosure law is adopted. C.R.S. 24-6-201

- This statement is from the Colorado Open Meeting Laws, and is important part of our democratic process.

It is declared to be a matter of statewide concern and the policy of this state that the formation of public policy is public business and may not be conducted in secret C.R.S. 24-6-401. "The public meetings laws are interpreted broadly to further the legislative intent that citizens be given a greater opportunity to become fully informed on issues of public importance so that meaningful participation in the decision-making process may be achieved. Cole v. State, 673 P.2d 345 (Colo. 1983).

- We, the public, have requested to engage fully in the decision making process but still do not feel engaged with a second meeting within a week with little time provided to review updated materials.

Voting Before a State Election with Major Implications on Oil and Gas Development

The Erie Board of Trustees has called an Emergency Meeting just days before an election.

- Residents do not understand the rush to push this agreement through before an election.

- Residents ask that the town NOT make commitments to any oil and gas operator until the results of the elections are known. Policy decisions should be made that support the results of the election.

Protection of Public Health and Safety

The Colorado Oil and Gas Conservation Act states per §34-60-102(1)(a) that “It is declared to be in the public interest to: (I) Foster the responsible, balanced development, production, and utilization of the natural resources of oil and gas in the state of Colorado in a manner consistent with protection of public health, safety, and welfare, including protection of the environment and wildlife resources”.

Therefore, this Operator Agreement must prioritize public health, safety, and welfare for ALL Erie residents and residents of surrounding communities. Protecting public health and safety cannot be arbitrarily applied and needs to be afforded to all residents.

The Operator Agreement does not meet the standards of protecting health and safety for the following reasons:

Nuisances

The Operator Agreement must ensure that adverse impacts, including nuisances, are adequately addressed such that these items can be enforced during all phases of development and operation. Previous operations indicate the need to address excessive dust, odor, vibration, and noise in a manner that is enforceable by contract law:

- Dust: The Operator Agreement lacks a detailed plan for addressing and fully mitigating the nuisance of dust as a result of the site preparation, increase in traffic and general construction and operation of the ACME site.
- Odor: One of the most common complaints from Erie residents to the COGCC is odor. The smell of strong petroleum and solvents, as well as odors that burn the throat and nose, are especially concerning. The Operator Agreement does not address how the Town of Erie will hold Crestone accountable when residents are exposed to such smells and irritations.
- Vibration: In November of 2015, residents in Erie experienced continuous C-Scale noise and vibration over the Thanksgiving holiday weekend. Such vibration is a public health hazard - particularly impacting those with pacemakers and other major health sensitivities. More recently, residents near the Coyote site have expressed concerns about home vibrations including damage to their homes. The Operator Agreement must detail how Crestone will address this issue and ensure that it does not happen at currently operating sites and potential new sites.
- Noise: Noise can cause stress to impacted residents and must be properly addressed including special limits during night-time hours. The COGCC uses a 15 minute average which can allow for levels higher than anticipated. The Operator Agreement must include provisions to prevent loud noises during specific hours.

Risk Analysis

In order to ensure “protection of public health, safety, and welfare, including protection of the environment and wildlife resources”, a comprehensive risk analysis should be required in any Operator Agreement. The preliminary risk analysis will demonstrate areas of risk that must be mitigated or avoided. The final risk management plan should indicate all methods of risk avoidance and mitigation methods implemented, and demonstrate that the resultant risk to residents is negligible for moderate to catastrophic impacts and near-negligible for nuisances. Avoidance of this requirement could result in public health, safety, and environmental risks, as well as financial risks, that the town is not required to undertake.

- The risk analysis must be performed prior to the finalization of a project such that proper siting is achieved and proper risk mitigation methods are able to be implemented. See the Citizen Risk Analysis for the 84 Well Plan in Broomfield for methods of analysis. All known and potential risks must be evaluated including but not limited to:
 - Fire/Explosion/Blowout
 - Pipeline Fire/Explosion
 - Leak/Spill
 - Water Pollution
 - Chemical Exposure
 - Water Contamination
 - Surface Water Pollution
 - Surface/Soil Contamination
 - Radioactive Exposure
 - Vehicle Spill
 - Radiological
 - Odor
 - Noise Pollution
 - Light Pollution
 - Ambulance Delays
 - Traffic on Roads
 - Truck Accidents
 - Silica Sand
 - Flood
 - Trespassing
 - Sabotage
 - Earthquakes
 - Worker Injury/Fatality
 - Use of Nitrogen
 - Property Values
 - Insurance Issues
 - Loss of Tax Revenue
 - Local Government Burden
 - Wildlife Habitat
 - SEC Financial
 - SEC Drilling
 - SEC Resources
 - SEC Laws
 - Inflated Estimates

Setback Distance

The site is close to both Erie Airpark and Anthem residents and is an unsafe location for a 30 well megapad. The existing Operator Agreement provided for 1000 foot setbacks for residents. This requirement was waived in the proposed new Operator Agreement for certain sites, which decreases protections for public health and safety for Erie residents. This location also sets up tension between Erie and Broomfield as each town attempts to make its residents more safe. This potential tension fails to honor the successful collaboration between leadership and residents of the two municipalities in recent months. Neither residents nor leadership should have to choose whether to endanger one neighborhood over another.

Best Management Practices

The Best Management Practices (BMPs) do not adequately address the increased concerns for large-scale oil and gas operations in close proximity to densely populated communities. These do not address heavy truck usage during peak hours; restricting the levels of air emissions; prohibition of specific chemicals; preparing and maintaining an emergency preparedness plan including evacuation routes and a system of notification; air quality monitoring and reporting; and the completion of a Risk Mitigation Plan including a full risk analysis for the cumulative impact of all wells over the life of the project.

Impacts on City of Broomfield

Staff and officials from the City of Broomfield have reached out to the Town of Erie with specific requests for information and to engage in this process. The lack of response from the Town of Erie to date is concerning. We continue to request that municipalities work together to site locations away from residential communities and prioritize public health, safety, and welfare, and the environment.

The City of Broomfield sent a letter to the Town of Erie Community Development Department dated July 17, 2018, regarding ACME 31H-P168. The City of Broomfield did not receive a response to these questions. The City of Broomfield sent a second letter to the Town of Erie dated October 30, 2018, with additional concerns and requirements.

- Broomfield officials, staff, and residents request the opportunity to provide input on this project.
- This megasite is exempted from many of the BMPs that do exist, even though the project has not yet been approved and is well within the timeframe to enact application changes.

Shallow Mines

There are shallow mines in the area of the proposed project that were a part of a State funded 2013 subsidence restoration project. The "experts" cited in the Operator Agreement proposal do not include the Colorado Geological Survey who are the foremost experts on the subsiding shallow mines in our town.

Proximity to Erie Municipal Airport

The Erie Municipal Airport is owned by the Town of Erie and is located just north of Hwy 7 and about a half mile west of Bonanza Drive. Per the City's website, the number of takeoffs and landings per year is approximately 35,000. The main traffic pattern is approximately 500 feet west of the proposed ACME site. With a past history of aviation accidents related to this airport, if one of these incidents were to occur at the ACME site, the result could be catastrophic.

Right to Protest

The residents would like the opportunity to address other concerns in the Operator Agreement like the town waiving its rights to call a hearing for applications 2 and 2A at the COGCC if staff feels the BMP's have been met, as this effectively precludes the residents' ability to challenge a project at the COGCC level.

Temperature Inversions and Drainage Winds

This megasite is an area where its toxic emissions will be trapped under temperature inversions, which will exacerbate the polluting effects of the oil and gas processes. People in low-lying areas are particularly susceptible to the harmful effects of breathing the toxic effluents trapped under the inversion. Normal nighttime drainage winds will also add to adverse effects of the sites air pollutants.

Highway 7 Coalition

The long-term vision of the Highway 7 Coalition is to make Highway 7 safer, reduce traffic congestion and introduce more public transportation options as communities served by Hwy 7 continue to grow. This route is already over capacity and therefore this coalition must study and provide input on the resultant impacts of the significant increase in volume of large truck traffic related to this project.

In exercising its authority over its highways, a state is not limited to the raising of revenue for maintenance and reconstruction or to regulating the manner in which vehicles shall be operated, but may also prevent the wear and hazards due to excessive size of vehicles and weight of load.¹

The Operator Agreement must include input from the Hwy 7 Coalition to address the following traffic impacts:

- Detailed plan to eliminate impacts on traffic flow for the thousands of additional heavy duty and/or special-duty truck trips required to deliver sand, chemicals, and supplies to the proposed ACME Site;
- Evaluation of potential for increased truck accidents and fatalities with the increase of heavy trucks on route predominantly travelled by commuter cars;
- Evaluation of current impact fees based on proposed toxic chemicals to be transported on Hwy 7 and potential change to fee structure;
- Cost Analysis for anticipated road repairs and method to ensure the operator pays for

¹ Accordingly, a statute limiting to 7,000 pounds the net load permissible for trucks is not unreasonable. *Sproles v. Binford*, 286 U.S. 374 (1932).

these increased repairs - not the neighboring jurisdictions;

- Avoid heavy duty and/or special-duty truck traffic during peak traffic hours; and
- Analysis of impact on emergency response time and plan to avoid those delays.

Emergency Preparedness

The isolation and initial evacuation zone for large oil and gas fires or explosions is 2,500 feet. If oil and gas operations are planned within 2,500 feet of occupied structures, roads, walkways, playgrounds, or areas where people congregate, the emergency evacuation of such areas requires plans for immediate and effective evacuation and plans to immediately rescue victims of the fire and/or explosion.

In addition to the evacuation of the isolation area, plans must be in place to efficiently evacuate densely populated neighborhoods including a pre-established method of communication to inform residents whether they should shelter in place or evacuate.

Due Process

It is necessary to slow down, review, and make transparent the process used in order to make it inclusive, equal, and accessible by the residents who are impacted by the proposed operations. If the Town of Erie is using the quasi-judicial process, then closed door communications with Crestone would indicate ex-parte communications have occurred by town officials. Therefore, it is presumed that the negotiations should be considered a legislative process, and the residents must not be excluded.

The impacted residents of Broomfield, including those impacted by the proximity of these large-scale industrial operations to their home, as well as those who will be impacted by increased air pollution and heavy truck traffic, must be included in this legislative process.

Documents excluded from the process have included myriad letters from the City of Broomfield, residents of Broomfield and Erie, and the ACME application itself, including more than one version, referrals, revisions, and changes in the application process since they rescinded their important waiver requests (if they did, in fact, rescind them, which is unclear and unknown by the Board). The Board (the judges in a quasi-judicial process) are voting on a case without sufficient evidence.

While we appreciate the effort made by certain Board members to right the potential wrongs made in these legislative and quasi-judicial processes, such process errors cannot be remedied by further rushing through public comment opportunities and a second vote. Over 600 residents who signed the recent petition have requested that you pause this process, and the original vote on Tuesday should stand. Indeed, the quasi-judicial portion of this legislative process must be removed and treated separately, residents must have adequate opportunity (more than a few days) to review relevant documents, and the Board must have the opportunity to review all evidence on which they are voting. Reviewing all evidence requires that the Board read all application materials and communication from the previous months

about ACME, and that ACME be discussed and voted on as its own case outside of the Operator Agreement.

I am flabbergasted that Erie's Board of Trustee's took a vote on Tuesday, 1/30/18, and is voting again on the same item 6 days later. To an "outsider" this does not look good, at all. The vote last Tues was 4-3. Why wouldn't it be the same 6 days later, unless someone has been trying to twist an arm or two? Since no one has seen this arm twisting, it would appear this arm twisting was done privately. Is this transparency? I don't think so. If you have forgotten, every speaker at last Tuesday's meeting asked the Board of Trustee's to vote "No", yet 3 Board members did the opposite of what your residents asked you to do. Why is that? Aren't elected officials supposed to represent and side with the citizens they represent? And once there is a "No" vote, why is that not a final vote?

45. Ben Waller (*ZIP code: 80023*)

46. Robert Gill (*ZIP code: 80023*)

Thanks for your help.

PLEASE -- slow down and consider this very carefully. Start by reading all of the points made in the letter to you from concerned citizens.

Of the utmost concern are health and safety concerns. Have you begun air quality analysis? What about noise and vibrations from drilling?

In light of the plane crash from Erie Airport on Friday, the idea of gas and oil drilling 500 feet from the airport on the Acme pad is absurd. Think of what might happen if a plane crashed onto the site.

There are so many things to be considered in a risk analysis. Please do not move forward with an agreement with Crestone until these are studied. You are risking the health of people!!

There is also the issue of increased traffic with big trucks on CO7, posing not only the real possibility of many accidents in addition to traffic back ups. Will there be underground pipelines to minimize truck traffic?

There are many issues to study and contemplate -- and provisions to be agreed upon concerning health and safety -- before moving forward. PLEASE do so.

Thank you.

Jaye Zessar

189. Jim Briars (*ZIP code: 80516*)

190. John Bultena (*ZIP code: 80023*)

O & G development needs, e.g., toxic chemicals, noise, traffic, visual pollution, vast water needs, catastrophic failures, etc. are simply not compatible with residential areas. Guarantee that 30 year effects on water & land pollution not a problem??? Doubt it. Promoted by "compensated endorsers"?? Probably.

191. Joseph Chicco (*ZIP code: 80023*)

192. Janet Sietmann (*ZIP code: 80023*)

193. Jennifer Cushman (*ZIP code: 80023*)

194. Jeff Hillberry (*ZIP code: 80516*)

195. Jean Lim (*ZIP code: 80023*)

196. Jean Sobieski (*ZIP code: 80023*)

197. Jennifer Bruntrager (*ZIP code: 80023*)

198. Jennifer Dulles (*ZIP code: 80023*)

199. Jennifer Calder (ZIP code: 80516)

Wait until after the election. Do not let the O&G companies put us in a corner to rush a decision. Acme is the wrong location for a mega pad!

200. Jennie Harrison (ZIP code: 80020)

201. Jennifer Carew (ZIP code: 80516)

202. Jennifer Bolton (ZIP code: 80023)

203. Jerry Moskowitz (ZIP code: 80023)

All of our needs and wants have be made known. Why are "the powers" circumventing our obvious requests trying to get around our needs?

I am asthmatic and can not tolerate smells and/or odors of any kind. Diesels and drilling byproducts in

the air can send me to the hospital. I am already going to National Jewish Hospital for breathing problems.

PLEASE do anything to stop or at least drastically cut down the number of wells to be drilled or if they must be, get them far away fro homes, schools, or ANY areas where people may be!!

204. Jessica Horsnail (ZIP code: 80023)

205. Jessie Claros (ZIP code: 80516)

No vote should be made until after Nov. 6. Listen to your community. We are speaking

206. Joan Taylor (ZIP code: 80023)

207. Jerome Horwath (ZIP code: 80023)

208. Jeanne Hartfelder (ZIP code: 80023)

Please give serious consideration to this letter. Thank you!

209. Joseph Marr (*ZIP code: 80023*)

210. John Plomer (*ZIP code: 80023*)

211. JOSEPH P SCHURWONN (*ZIP code: 80023*)

212. Janet Beaver (*ZIP code: 80023*)

213. John Hrivnak (*ZIP code: 80023*)

214. Jeffrey Kahn (*ZIP code: 80023*)

215. Jennifer Lindstrom (*ZIP code: 80023*)

216. Joan Stern-Murahata (*ZIP code: 80023*)

Please delay this vote! All we need is a large fracking site next to an airport next to several gas stations, and hundreds of residences. Make the laws fit the times. Please don't force your community to suffer due to antiquated laws! Also, keep in mind that many of us like to shop and dine, and volunteer in Erie, but that will change for a number of us, if we see that Erie counsel cares nothing for the health and safety of residents and neighbors.

217. Jennifer Gianetti (*ZIP code: 80516*)

218. Joanna Juras (*ZIP code: 80023*)

219. Joanne Post (*ZIP code: 80023*)

I am totally opposed to the proposed amended and restated operator agreement with Crestone Peak Resources LLC!

220. John Alpine (*ZIP code: 80023*)

245. Kathryn Schumacher (*ZIP code: 80023*)

246. Kathlyn Zukowski (*ZIP code: 80023*)

247. kathryn meyer (*ZIP code: 80023*)

248. Kathleen Spiers (*ZIP code: 80130*)

249. Kelly Kling (*ZIP code: 80023*)

Delaly the vote if you care about the citizens affected by this insanity!

250. Kenneth Knudsen (*ZIP code: 80023*)

Stop the continual movement toward established residential areas. All about money.
Ken Knudsen

251. Kenton Skeels (*ZIP code: 80023*)

252. Kevin Bullock (*ZIP code: 80516*)

We don't know the long term health impacts!!!! We need to stop this.

253. Kimberly Dill (*ZIP code: 80020*)

254. Kim Kutta (*ZIP code: 80516*)

255. Kim McNaughton (*ZIP code: 80023*)

If you think the environment and our health is less important than your economy, try holding your breath while you count your money.

256. Kim Jaeger (*ZIP code: 80023*)

257. Kathyleen Devine (*ZIP code: 80023-8355*)

258. Brian Powers (*ZIP code: 80023*)

Enough is enough!!

259. Michael Kohut (*ZIP code: 80023*)

The will of the People should decide this (Proposition 112). Please do not take this into your own hands – there exists no pressure to do so. A vote for approval is nothing more than an expression of favoring private profit over the public's well-being. Please represent the views of Colorado citizens in the immediate area.

260. Gerald Kraut (*ZIP code: 80023*)

Don't rush wait until after Election Day. Residents are tired of the lies of the oil and gas industry. We want protections for our health and safety. Thank you for taking the citizens seriously.

261. Linda Kraut (*ZIP code: 80023*)

Please make sure you have all BMP's in writing before Crestone starts drilling. Residents are speaking and we all want to preserve our health and safety. Do not let oil and gas companies bully you. At least wait until after Election Day.

262. Kristen Reif (*ZIP code: 80020*)

263. Kristen Snyder (*ZIP code: 80023*)

264. Kristen Hughes (*ZIP code: 80023*)

Please, stop the nonsense.

265. Kristen Forrest (*ZIP code: 80020*)

266. Kristi Covalciuc (*ZIP code: 80023*)

267. kris rutkowksi (*ZIP code: 80023*)

268. Keith Wade (*ZIP code: 80023*)

269. Kylee Piper (*ZIP code: 80033*)

270. Lanae Davis (*ZIP code: 80023*)

271. Lance French (*ZIP code: 80023*)

272. Lara Hill (*ZIP code: 80023*)

At what point does the greed stop?

273. Laurie Anderson (*ZIP code: 80023*)

274. Leslie Ball (*ZIP code: 80516*)

Don't try to rush this through. Bring it up on the agenda at the next regularly scheduled BOT meeting

- I never even would have heard about if not for the FB scuttlebutt.

275. Leslee Hecht (*ZIP code: 80023*)

This is too close to homes!

276. Linda Sullivan (*ZIP code: 80023*)

277. Mark Lindner (*ZIP code: 80023*)

278. Lindsey Paquette (*ZIP code: 80020*)

279. Lisa Alpine (*ZIP code: 80023*)

We are very concerned about the health and safety of our neighborhoods!

280. Lita Epstein (*ZIP code: 80023*)

281. Linda King (*ZIP code: 80023*)

282. Linda Darling (*ZIP code: 80033*)

283. Lucia Barrera (*ZIP code: 80023*)

Please stop drilling close to our houses

284. Mike Lance (*ZIP code: 80023*)

285. Lois Moskowitz (*ZIP code: 80023*)

286. Loretta O'Dell (*ZIP code: 80020*)

287. Laura Pitman (*ZIP code: 80023*)

288. Linda Vining (*ZIP code: 80023*)

Protect our health and safety

289. Linda Ung (*ZIP code: 80023*)

290. Leah Luther (*ZIP code: 80020*)

291. Lynnette Vesco (*ZIP code: 80023*)

292. Lyndsey Kujawa (*ZIP code: 80516*)

A lot of us fought hard to get Mayor Carroll elected, now we're having to fight even harder against her, to protect our town!

293. SuLynn Hartojo (*ZIP code: 80023*)

294. Michael Arrington (*ZIP code: 80023*)

295. Mackenzie Carignan (*ZIP code: 80023*)

Seriously.

296. Autumn Morning Star (*ZIP code: 80516*)

297. Michelle Kirkpatrick (*ZIP code: 80023*)

Stop this!

298. Amanda Mercurio (*ZIP code: 80023*)

I don't understand why a second bote is even needed. SAFETY FIRST.
NOT money or politics. Period.

299. Marc Snyder (*ZIP code: 80023*)

We need to be forward thinking and pursue regenerative solutions.

300. Margaret Miller (*ZIP code: 80026*)

301. Margaret Ash (*ZIP code: 80023*)

This is not in the best interests of health and safety, citizens, or living beings and things. Don't allow yourself to be bullied. Do what is right and what you can be proud of.

302. Mark Phillips (*ZIP code: 80023*)

I think this is inappropriately close to houses and being rushed through.

303. Mark Brady (*ZIP code: 80023*)

304. MARK KOENIG (*ZIP code: 80023*)

305. Marla Nation (*ZIP code: 80020*)

306. Marsha Rutenberg (*ZIP code: 80023*)

307. Matthew Winter (*ZIP code: 80023*)

308. Matthew Johnson (*ZIP code: 80023*)

309. Michael Baum (*ZIP code: 80023*)

Against this proposal for oil and gas to develop in this area and certainly against them changing the number of pads at the last moment. This continues to be a problem with these operators asking for more after the original agreements have been discussed and made.

310. Mike Bommer (*ZIP code: 80023*)

Drilling is too close to homes and community.

311. Marco Celada (*ZIP code: 80023*)

312. Michael Kraus (*ZIP code: 80515*)

313. Michael Wagner (*ZIP code: 80023*)

314. Megan Barickman (*ZIP code: 80021*)

315. Megan Sales (*ZIP code: 80516*)

316. Megan Conner (*ZIP code: 80023*)

317. Melissa Tumblin (*ZIP code: 80023*)

Please do not do this to our environment and endanger our residents! Please keep Broomfield safe for our families who choose to live here and support Broomfield city and county.

318. Melvena Taylor (*ZIP code: 80023*)

Crazy to have fracking under our homes and close to schools.

319. Melissa deSugny (*ZIP code: 80023*)

320. Michael Carpenter (*ZIP code: 80023*)

321. Meredith Gibney (*ZIP code: 80023*)

Delay the vote

322. Megan Wilder (*ZIP code: 80302*)

323. Mia Fill (*ZIP code: 80516*)

324. Michele Goldman (*ZIP code: 80023*)

I am not sure the proper development process was followed

325. Marjorie Kane (*ZIP code: 80023*)

No wells on the acme pad

326. Michael Wyn (*ZIP code: 80023*)

Please do not approve the proposed operator agreement with Crestone Peak Resources, LLC.

327. Michael Bass (*ZIP code: 80023*)

Proceeding without proper discussion and consideration , lack of transparency and utter disregard for the concerns of Erie's neighboring community is not an appropriate path to pursue.

328. Monica Korber (*ZIP code: 80516*)

Vote no to the amended Crestone Operator agreement.

329. Marilyn Miller (*ZIP code: 80023*)

Please vote "no" on the proposed operator agreement with Crestone Peak Resources LLC.

330. Mark Kadlecek (*ZIP code: 80023*)

You are moving too fast with too many variables and unknowns. Don't get caught with your pants down.

331. Marjorie Birks (*ZIP code: 80023*)

Keep oil and gas fracking out of neighborhoods. Too dangerous to health and safety.

332. Mary Murray (*ZIP code: 80023*)

Let the election speak.

333. Sarah McCurdy (*ZIP code: 80023*)

334. Amanda Janusz (*ZIP code: 80503*)

335. Maura Devine (*ZIP code: 80023*)

336. Melia Bisbee (*ZIP code: 80020*)

No! To fracking Erie: Crestone is not to be trusted!

337. Mark Sohasky (*ZIP code: 80023*)

339. Marie Webber (*ZIP code: 80023*)

340. Nancy Bednar (*ZIP code: 80516*)

341. NANCY STEBBINS (*ZIP code: 80023*)

342. Nancy Flanagan (*ZIP code: 80023*)

343. Neal Stack (*ZIP code: 80023*)

344. Natalie Miller (*ZIP code: 80516*)

345. Norm Hecht (*ZIP code: 80023*)

This is too close to homes

346. Nitra Lagrander (*ZIP code: 80023*)

347. Neil Allaire (*ZIP code: 80020*)

348. Nancy Love-Garcia (*ZIP code: 80023*)

349. Natalie Zandonella (*ZIP code: 80023*)

Horrible situation with Drills so close to residential areas. Erie must do the right thing and not allow. Also, all retail and restaurants along Rt7 in Erie are pretty terrible as well.

350. Oswald Claros (*ZIP code: 80516*)

351. Steven Cvencek (*ZIP code: 80020*)

352. Wendy Schory (*ZIP code: 80023*)

353. Owen Schory (*ZIP code: 80023*)

354. Jenny Kratzke (*ZIP code: 80516*)

355. Pamela Biard (*ZIP code: 80516-8137*)

Delay this vote for the operating agreement

356. Hector Almanza (*ZIP code: 80516*)

357. HG Parsa (*ZIP code: 80023*)

358. Patrick Talbot (*ZIP code: 80023*)

359. SHEILA TALBOT (*ZIP code: 80023*)

360. Patricia Anderson (*ZIP code: 80516*)

361. Paul Brynteson (*ZIP code: 80023*)

362. James Crawford (*ZIP code: 80123*)

363. Paula Stack (*ZIP code: 80023*)

364. Peggy Morrison (*ZIP code: 80023*)

I live in Anthem Ranch near the proposed Acme Pad and am against the change to 30 Wells because of being a cancer survivor with compromised immune system

365. Margaret Brauer (*ZIP code: 80023*)

366. Margaret Sorce (*ZIP code: 80023*)

367. Donna Folger (*ZIP code: 80020*)

368. Jane Whitehead (*ZIP code: 80023*)

I am very concerned about the fracking planned for the corner of Hwy 7 and Bonanza. Please help look after Erie and its residents.

369. Peter Jaumann (*ZIP code: 80516*)

Please delay after Nov6 and fully understand the ramifications, be transparent and act on the will of Erie's people

370. Margaret Gutmann (*ZIP code: 80023*)

Those proposed wells are much to near living, breathing people!

371. Patricia Harlow (*ZIP code: 80516*)

372. Jim Bensman (*ZIP code: 80023*)

373. John Biard (*ZIP code: 80516*)

Vote no on the revised operating agreement. We don't want Crestone drilling on Bonanza and Highway seven

374. Paul Classen (*ZIP code: 80023*)

375. Christie French (*ZIP code: 80023*)

376. Peg Wirt (*ZIP code: 80023-8088*)

377. Pamela Nocerino (*ZIP code: 89516*)

378. Ellen Tennenbaum (*ZIP code: 80023*)

379. Peggy Watrobka (*ZIP code: 80023*)

380. Patrick Del Pizzo (*ZIP code: 80020*)

381. Ann Lessem (*ZIP code: 80020*)

382. John Moore (*ZIP code: 80516*)

383. Rachel Balkcom (*ZIP code: 80516*)

384. Rachell Buell (*ZIP code: 80023*)

385. Raymond Bruntrager (*ZIP code: 80023*)

386. Robert Bergland (*ZIP code: 80023*)

We would have fracking on both the north side and the sound side. I don't want to be an experiment to see how many VOC's I can absorb.

387. Reva Kopel (*ZIP code: 80023*)

388. Renee Stoffer (*ZIP code: 80516*)

389. Roger Baer (*ZIP code: 80023*)

390. Renee Gregory (*ZIP code: 80516*)

Please please reconsider this deal And do not let Crestone bully you. I am a VERY concerned Airpark resident. Think about the homes, children, tragic and Heath concerns

391. Roxanne Gutschenritter (*ZIP code: 80516*)

392. Rhonda Lange (*ZIP code: 80023*)

393. Zach Thompson (*ZIP code: 80020*)

394. Richard Lane (*ZIP code: 80023*)

The Board has one chance to get this right. The current proposal is not sufficient. The Board needs to delay adoption until all conditions are properly set forth. Delaying a few weeks will allow due consideration of all the necessary conditions.

395. Richard Ung (*ZIP code: 80023*)

396. Richard Beaver (*ZIP code: 80023*)

397. Richard Creswell (*ZIP code: 80227*)

People's rights are vital to life; corporations are not- they don't breathe or drink the water.

398. Rita Risom (*ZIP code: 80023*)

399. Robert Nielsen (*ZIP code: 80023*)

400. Robert Calder (*ZIP code: 80516*)

401. Robert Kelso (*ZIP code: 80023*)

402. Robin Sanders (*ZIP code: 80516*)

405. Roz Smith (*ZIP code: 80023*)

406. Ronald Koehler (*ZIP code: 80023-9431*)

407. Ron Lowther (*ZIP code: 80023*)

Just say NO!

408. Justin Tollard (*ZIP code: 80516*)

Do the right thing. Delay this vote. We elected you to represent the will of the people and we don't want any wells and we won't compromise

409. Ruth Meyer (*ZIP code: 80023*)

410. Ryan Seabury (*ZIP code: 80023*)

Really? Taking a vote on a Sunday? Two days before an election and just a few days after the previous vote? This seems like a clear violation of public process.

411. Stacey Sargent (*ZIP code: 80023*)

412. Sally Kaplan (*ZIP code: 80023*)

I would have hoped that Eire learned something from what we in Broomfield have gone through over the past two years. Stop the fracking and save lives -- ours. Oil and Gas doesn't own Colorado the people who live here do.

413. Sandy Doyle (*ZIP code: 80023*)

414. Sandy Anderson (*ZIP code: 80023*)

415. Sarah Egolf-Tarr (*ZIP code: 80020*)

416. Sarah Rimmel (*ZIP code: 80516*)

417. Shelley Bayne (*ZIP code: 80023*)

Please give Broomfield and Erie proper notice to participate in the government of our communities

418. Sharon Blackmon (*ZIP code: 80516*)

Please delay the OA vote.

419. Timothy Schuler (*ZIP code: 80023*)

420. Scott Savage (*ZIP code: 80023*)

421. Scott Ogle (*ZIP code: 80023-8493*)

422. Serena Arnold (*ZIP code: 81601*)

423. Shannon Gibney (*ZIP code: 80023*)

424. Shauna Schmitz (*ZIP code: 80023*)

425. Shari Fitzgerald (*ZIP code: 80021*)

426. Sharon Vary (*ZIP code: 80023*)

Please please pay attention to all the possible disastrous results of having wells in this area. PLEASE

427. Shaun Prigmore (*ZIP code: 80023*)

428. John Shea (*ZIP code: 80516*)

429. sheldon birkhold (*ZIP code: 80023*)

430. Sherrie Somrak (*ZIP code: 80023*)

Come to your senses. This is too close to any residential area.

431. Susan Shulman (*ZIP code: 80023*)

432. Lawrence Foster (*ZIP code: 80023*)

433. Sheng Liu (*ZIP code: 80023*)

434. Sara Loflin (*ZIP code: 80516*)

435. Volodymyr Vladymyrov (*ZIP code: 80023*)

436. Susan Kozik (*ZIP code: 80516*)

437. Susie Jacobs (*ZIP code: 80023*)

438. Arnold Sorocki (*ZIP code: 80023*)

439. Susan Pabst (*ZIP code: 80023*)

440. Cody Spyker (*ZIP code: 80516*)

C'mon y'all. This second-round vote is shady & not to mention that it flies in the face of public discourse & the democratic process, especially on the heels of this past Tuesday night proceedings in which MANY folks-- Erie & Broomfield alike-- voiced

their very valid concerns towards this particularly off-putting OA (a timid description) and the very poor way it's been handled in the private & public sphere thus far.

Listen to your constituents; PLEASE please don't vote this Operator Agreement through, "amended" & "restated" as it may be. Erie can do better. The Board of Trustees can do better.

441. Stacy Baum (*ZIP code: 80023*)

442. Audrey Thompson (*ZIP code: 80023*)

Delay

443. Fred Steenkamp (*ZIP code: 80023*)

Let's keep drilling a safe distance from locations where people reside, go to school and all public spaces!

444. Danni-lyn Steiner (*ZIP code: 80023*)

445. Steven Maxwell (*ZIP code: 80023*)

446. Lindsay Florence (*ZIP code: 80023*)

447. Susan Decker (*ZIP code: 80023*)

448. Susannah Vukosa (*ZIP code: 80023*)

449. Susan Stewart (*ZIP code: 80023*)

450. Suzie Brundage (*ZIP code: 80602*)

451. Steve Dunn (*ZIP code: 80020*)

452. Eric Thompson (*ZIP code: 80023*)

Please delay the vote. Residents do not want and you need to delay until after 112 passes.

453. Vicki Hillberry (*ZIP code: 80516*)

454. Sophia Thompson (*ZIP code: 80023*)

Delay the vote

455. Elizabeth and John Tillmanns (*ZIP code: 80023*)

The points made in the letter from the concerned citizens of Erie and Broomfield are urgent. The haste of this vote is very concerning and we would ask you to please allow us time to attend the meeting. Two day's notice is not adequate. Thank you.

456. Tim Drnec (*ZIP code: 80516*)

Please do the right thing for your Erie residents, and for your neighbors outside Erie. Our health, safety, welfare and quality of life supersede profit and greed. Vote "no" on the proposed operator agreement. [As has been stated elsewhere, operator agreements and memorandums of understanding are simply negotiations on determining the terms of our surrender.]

470. Jeanne Wagner (*ZIP code: 80023*)

471. Walter Szymanski (*ZIP code: 80020*)

472. John Weaver (*ZIP code: 80023*)

Again, oil and gas development that is imply not appropriate. Just because one may own property, does not mean it can be used to the detriment of others, as proven over and over in our society.

Please rethink this whole situation for the good of all in our area whether they be residents of Erie or Broomfield! New approaches are mandatory!

473. Courtney Weiss (*ZIP code: 80023*)

474. Wendy McKendrick (*ZIP code: 80241*)

476. Guy Johnston (*ZIP code: 80023*)

477. Wynell Popovich (*ZIP code: 80023*)

How can you approve such an abhorrent, dangerous placement of 30!! Wells, adjacent to an airport and a major highway, heavily traveled & too narrow now to handle the traffic?! You are also aware how many homes are surrounding this potential pad. Why also the rush, esp. before the election to see if 112 passes. You certainly are not taking into consideration "health & safety" of your constituents, nor Broomfield residents!

478. Wilma Mooney (*ZIP code: 80023*)

Please do not approve a modified version. Our lives depend on it!

479. Brends Lyons (*ZIP code: 80023*)

480. Lois Weber (*ZIP code: 80023*)

481. MaryBeth Stone (*ZIP code: 80023*)

Colorado has sufficient wind/sun to establish power sources. The argument that start-up costs are too high to consider such sources are foolish. Once established, the follow-up costs will be considerably safer and more cost effective than oil/gas production.

This issue isn't just about money: it is about the legacy we leave our children and their children.

Consider...How many proponents of fracking/drilling would be willing to live at the 500' limit by a well/fracking system? Has anyone asked these folks?
